

BOOK247

The most innovative and user-friendly court reservation system on the market!

Our web app works on all modern operating systems

With 42 courts, we have by far the biggest racquet club chain in Norway and have used many different online court reservation system over the last 15 years. Nothing really fulfilled all our needs, but Book247 does the job for everybody; our management, all our receptionists and most important it is super easy to use for our customers!

J. Jørgensen, CEO in SquashFitness Norway

The most innovative and user-friendly court reservation system on the market!

Customers prefer nowadays to book flights and hotels online, instead of calling a hotel or travel agency. As a club owner, you want to make booking courts as easy as possible for your customers! Additionally, more online reservations mean you and your staff can focus on other tasks. Traditionally, most reservation systems have not been suitable for racquet sports, were not user-friendly and were not suitable for mobile devices.

To make sure your customers book courts online, you need to introduce a system that is quicker, easier and more convenient than dialing a phone number.

Book247 offers all this and more:

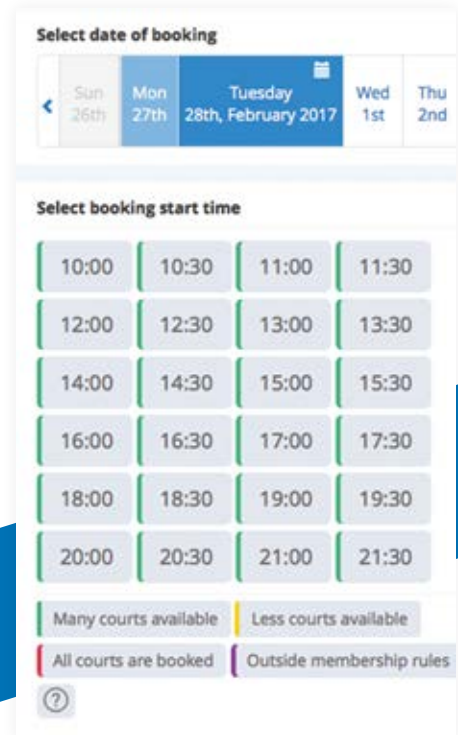

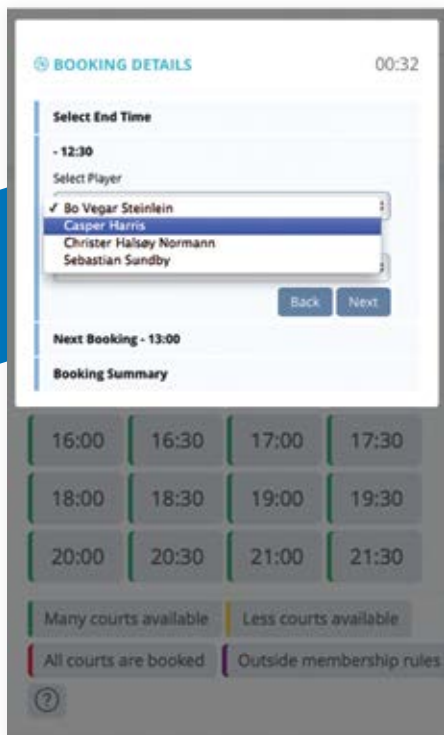

1. Customize booking rules per membership type
2. Get paid directly online when drop-in customers book online (optional)
3. Set up automatic payment for membership subscriptions
4. Automatic invoices are generated when courts are reserved
5. Create recurring bookings/fixed courts with a few clicks
6. User-friendly system for your members and your employees
7. See full (financial) statistics for your business
8. And so much more...

How does it work?

Booking on mobile devices made easy.

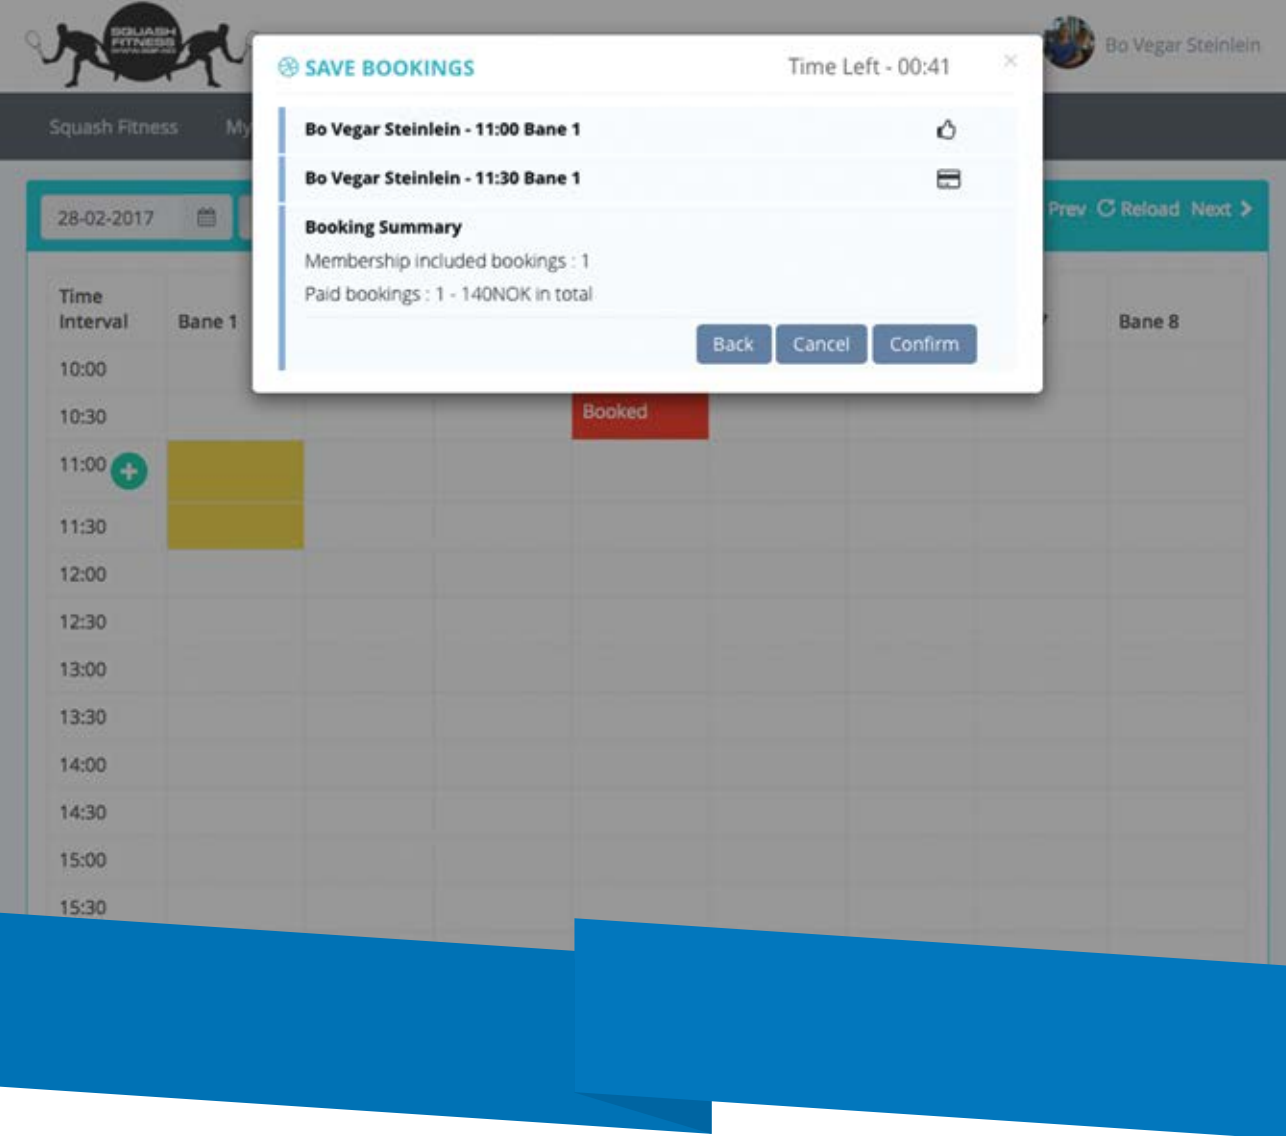

The booking calendar will be displayed like this on your phone.

A member can easily change dates and select available hours.

Each member can add their playing partners as “friends” which makes it possible to book on behalf of a friend.

This way, one person can take care of the court reservation for one or more friends with only a few clicks.

If a member books a service outside of their membership agreement, the system will ask for an (online) payment for the additional bookings.

Payments can be made by Paypal, Visa, Mastercard, Stripe, Giropay, iDEAL, SEPA Debits, Sofort and Bankcontact. We're working to add more payment methods.

How does **Book247** work for the reception team?

The management can easily add as many courts as they have available, choose different colors per membership type and add quick action buttons under each reservation to indicate status of the booking, payment, notes, etc. Manage user permissions, so you decide what each receptionist/employee can see and do in the system.

Play Alone Recurring Booking

Booking Summary

Most racquet clubs have special memberships where customers have a recurring booking on an ongoing basis. For example, a company would like to book court 4 every Monday at 20:30-21:30 between 15th of April and 24th of October. With Book 247 you can book any recurring bookings with a few clicks and automatically an invoice will be generated.

Single sign-on integration with [Rankedin](#)

Book247 is linked via a “single sign-on” with our ranking and event system, called Rankedin. Rankedin makes it possible to create your own club ranking in only a few clicks and to organize and run any kind of event is from now on, a piece of cake. It offers a ton of other great features, which makes life for club owners so much easier!

it is booked at 2030. I prefer 20 or even 1930, is that ok for you?

🕒 05/11/2016 at 07:18

No courts available in lysaker. Shall we play in bærum?

🕒 20/01/2017 at 03:52

Sure! Bærum

Sure! Bærum

What's on your mind...

By being included in the club's ranking, players automatically get a playing level. This makes it easy for them to find new playing partners on their level by simply clicking on a player who has the same level. By doing so, players can visit another player's profile, fill out a match result, send a message or challenge the player directly.
